The Tri-Weekly Athig.

KNOXVILLE, TENN .: Saturday Morning, February 25, 1860.

A Liberal Offer.

For \$5 inclosed to me by mail, I will s end Kain's Constable's Guide and Form Book, my discussion on Slavery, and the Weekly Whig for one year, and for \$4, I will send the Guide and Form Book, and Whig for one year, to any one address, W. G. BROWNLOW.

> Furnishing back Numbers. Gentlemen frequently write to us for back numbers of our Whig, or special papers containing certain communications. We have no spare numbers left on hand -we never have-each edition for the week being consumed. We keep one file of the paper, and have our file bound. These we keep for reference, and will not send them to any one.

> Wanting to know our polities. We occasionally recieve letters from men, asking us to say, with apparent sincerity. in privite letters to them, what our political sentiments are! We are rather at a loss to know how to answer such ques-Whether such men are thems selves fools, or desire to insult us, we are unable to decide. Upon the supposition, however, that they are really in earnest, we will say, in all candor, that we entertain no sentiments that we have not set forth in our paper. And if we have been unable to impress the minds of these gentlemen with our views, we shall be unable to make ourselves understood in any private letter that we may write.

Two Fast Tennesseeans.

Parson Graves, of Nashville, editor of the Tennessee Baptist, has recently performed an extensive tour through Texas, and gives notes of travel in his paper. He points out two Tennesseeans by name, and throws some light upon the Agency held at Nashville, for the Bank of East Tennessee, and the Exchange Bank at Murfreesboro'. Here is the significant paragraph to which we allude:

"Our townsman, the late Comptroller of this State, Mr. Crozier, is considered the "fastest" man about town. He has purchased the finest private mansion in the place, drives the finest horses and seems to be "elbow deep" in the real cash. Such flush men help to make the currency easy in a place. Mr. Spence, of Murtreeshoro, was expected daily to join Mr. Crozier in Austin, for some large operation, we believe, and it is understood that they have a heavy cash capital, and that they will make the times good around them.

An Item of Corruption.

Secretary Cobb, in answer to the Senate's resolution of inquiry, as to the corruptions of the Administration, gives the names of several special agents he has employed as Revenue Collectors, to whom he pays \$16,000 per annum. In other words, several secret agents are employed at a cost of \$16,000 per annum to watch higher officers, and keep them from stealing the revenues of the Government! This is an admission that they have thieves in office. We suppose all the other Departments have these secret agents, and if so, this explains, in part at least, what goes with the people's money. If these agents, set to watch, should take yesterday's E to stealing, as they no doubt will, it will specimen of the rashness, ill-temper, require others to watch them !

ELECTION OF SPEAKER .- The election of Wm. Penington of New Jersey, after so bitter and long a contest, may justly be considered a defeat of the Black Republicans, a triumph of conservatism and an overthrow of the Helperites. They have been compelled to abandon their favorite candidate and to submit to the election of one, who if not entirely identified with the great body of their opponents is by no mear one of themselves. We have no doubt that the South will willingly acquiesce in this election, amounting as it does to a defeat of Sherman, We have not much knowledge of the an tecedents of Gov. Pennington: but he has the reputation of being a candid, fair and honest man, and one who will in his appointment of committees, the only important perogative the Speaker has, do impartial justice to all parties. He is not claimed by the republicans as one of their party, but is set down as belonging to the "People's party," a new organization lately spring up in the middle States, wholly opposed in principle to the abominations of the Republicans-and he has never had any sympathy with the Abolitionists. We have no doubt that his administration of his office will be accept able to all conservatives .- Augusta Dispatch.

THE SPEAKERSHIP - Although the canism as embodied in Sherman, the endorser of the Helper Book. Mr. Pens nington's antecedents are not, we believe, he is a non extensionist as regards slave territory. The discomfiture of the Blackest of the Republican set in Congress is a subject of general congratulation where to the dignity of a virtue as it is in certain portions c. New York and New 1. - Charleston (d. (C.) Meres

Colds .- Dr. Hall's Journal of Health says there are three things every man should do the moment he is satisfied that he has taken cold: 1st, eat nothing; 2d, go to bed and cover up warm in a warm room: drink as much cold water as he can or wants, or as much hot herb tea as he can; and thus using himself, in three cases out of four, the subject will be cured in thirty six hours. On the contrary, if he allows his colds to go two days unmolested, start, will run its course of about a fortnight, and whatever is swallowed then by way of physic is a useless hindrance. It is a mischievous, though somewhat popular fallacy, "feed cold and starve a fever." Feeding a cold is feeding a tever; a cold always brings on fever, and never begins to get well until the fever subsides; and every mouthful swallowed is so much | fuel to sustain the fires of fever. It is indeed, fortunate that as soon as the cold is fairly seated nature allows no appetite; otherwise the most common cold might be followed by very serious results, and, unless upon a very sturdy constitution, would almost prove fatal.

The DIFFERENCE. - The Brandon Miss. Republican fairly hits the insincerity of the Democracy touching the slavery question in the following rough but lively

John Sherman, to prove you're bad, But one remark suffices-You endorsed Helper's book

Oberlin.

"The negro settlement of Oberlin has got to be a nuisance, which calls loudly for abatement. It is a disgrace to the State. Oberlin has progressed far be-youd negro equality with the whites. They rule the latter who live there with a high hand. They sit down at the first table of the hetel there, and such whites as do not like to eat with them are invited to partake of their leavings at the sec-

papers, read much, and are an example of harmony. They have but one fault. They are ultra on the negro question. They make no distinction as to color, and religiously despise those who uphold slavery. Distasteful as this is to other portions of the State, it is no reason that Oberlin should be set down as a " nuisance which calls loudly for abatement." Would the Enquirer like to see Oberlin invaded by a mob, her peaceful homes desecrated, and her moral, upright citizens ontraged?-How else would it have the nuisance abated? It seems to us that the plain proposal to destroy the com-munity of Oberlin, by mob law or otherwise, comes with an ill grace from the exponent, par excellence, of popular sovereignty .- Cincinnati Times.

Louisiana.

The Hon. Thomas Overton Moore, the new Governor of Louisiana, says in his inaugural address:

"There is a patriotic minority in the non-slaveholding States who are faithfully upholding the rights of the South and battling for the maintenance of the Constitution The entire South makes common cause with this minority, constituting a great national party, all striving to conquer and annihilate that sectional party whose success will immediately jeopard and finally sever the Union. The triumph election of Mr. Pennington will not be an of this great national organization will be absolute Southern triumph, it is comparate the beginning of a return to that 'perfect tively so, by the defeat of Black Republis | union, that 'general welfare, and that 'domestic trauquility' which the constitution of the United States was intended to secure. Such a triumph would greatly so obnoxious to Southern censure as any restore the old harmony and awaken of the class of party men who have ban- again the old sentiments; and it is the ded together under the Black Republican last hope of those who like myself, desise With the abolitionists we have never | to see the Union perpetuated. Louisiana heard he had any association, except that does not desire to see these States severed from their present political connexions."

The Printing Fraud

Extraordinary and unexpected frauds fanaticism is not encouraged and elevated are being discovered in Washington. We copy the following :

Mr. Megargee, of Philadelphia, testified before the Printing Investigating Committee of the Senate on Saturday, that he received be-Wendell for the purpose of organizing a third party in Pennsylvania proceeding the Guber-natorial and Presidential elections, which the Democracy regarded as imperatively necessary to secure the State for Buchanan. The money was applied to that object.
